Augmented Reality Solution

Transforming Medical Experiences with Immersive Technology

Who we are

PointZero Immersive Lab builds practical AR, VR, and spatial solutions helping organizations train teams, visualize complex systems, and engage audiences through high-quality Immersive technology.

Our identity

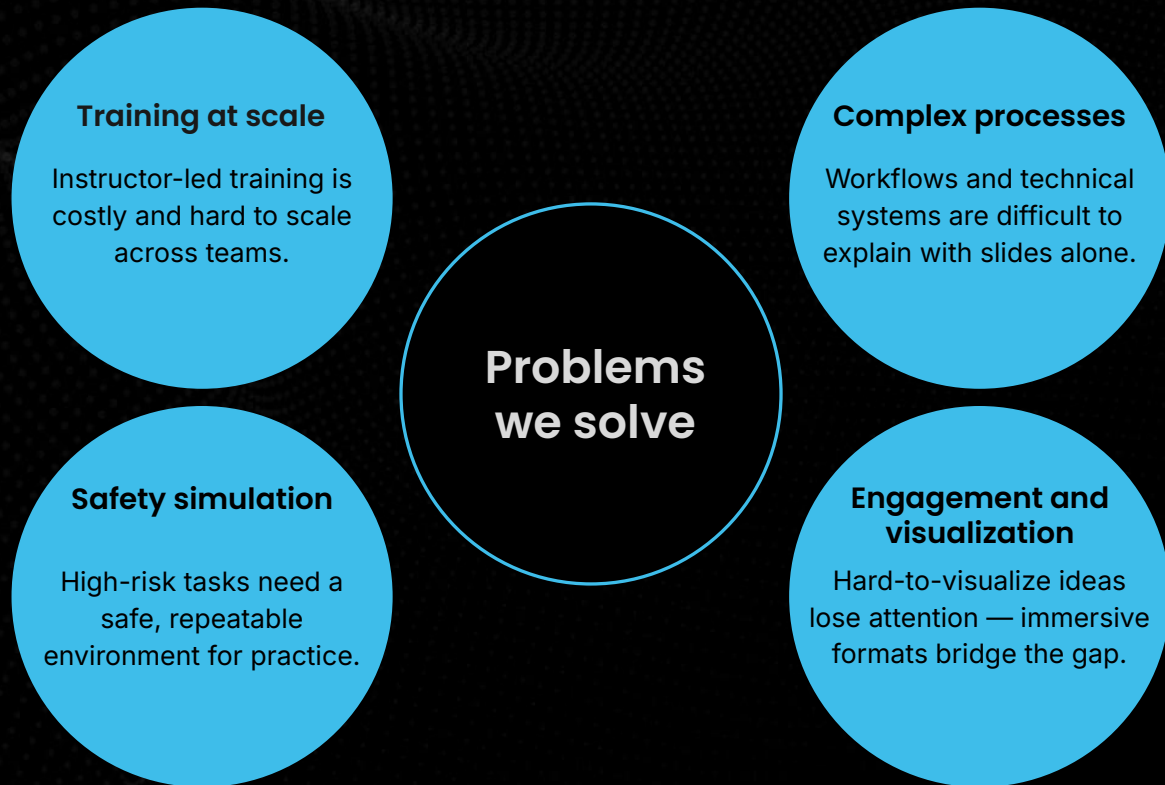

We design experiences
that
solve real problems

Technology and creativity
working in tandem

Deep industry
understanding

Execution that delivers
operational value

Organizations face complex communication, training, and engagement challenges that traditional formats can't solve

AR in Healthcare

Key Use Cases

AR for Patient Communication

Enable doctors to visualize internal structures overlaid directly on the patient's body using AR-enabled tablets or glasses.

Medical Equipment Training

Guide staff with real-time, hands-free AR instructions for operating complex medical devices.

Our AR Solutions

AR mobile & tablet apps

Our AR mobile and tablet apps deliver immersive, interactive experiences. They seamlessly blend digital content with the real world

AR head-mounted displays for operating rooms

Our AR head-mounted displays provide real-time, hands-free guidance in operating rooms. They enhance surgical precision and efficiency

Interactive 3D medical visualizations

Our interactive 3D visuals simplify medical concepts. They improve learning and communication

AR-enhanced patient communication tools

Our AR-enhanced tools make patient communication clearer and more engaging. They help visualize conditions and treatments in real time

Industries we serve

Immersive solutions across sectors

Manufacturing

Simulate assembly lines and train operators in virtual environments

Automotive

Virtual showrooms and immersive design review experiences

Aviation & Aerospace

High-fidelity simulation for crew training and mission rehearsal

Healthcare

Surgical simulations and patient education in immersive 3D

EduTech

Interactive learning experiences that improve knowledge retention

Oil & Gas

Safe hazard simulations and remote inspection in virtual space

Real Estate

Virtual property walkthroughs before construction begins

Infrastructure

Digital twin visualisation for planning and stakeholder review

Training & Safety

Risk-free scenario-based training across all critical environments

Why immersive works

76%

increase
in learning effectiveness

4x

faster
employee training vs. classroom

600%

ROI
for VR training in industrial settings

75%

retention
in VR vs. 10% in lectures

43%

reduction
in workplace injury risk

52%

lower cost
than classroom training at scale

Outcomes Point Zero clients achieve across training, safety, and workforce development programs.

Why PointZero

Built for execution, designed for real environments

Practical solutions

Immersive tools built to work in real-world conditions, not just demos.

Production quality

High standards at every stage, from concept through to final delivery.

Industry focus

Deep sector knowledge shapes how we design and deploy every solution.

Reliable delivery

Consistent execution on time, with clear milestones and accountability.

Scalable solutions

Designed to grow with your needs, from pilot projects to full deployments.

Technical depth

Strong in-house capability across XR, spatial computing, and real-time rendering.
